# Go Direct

NTT's quote and order portal is packed with features that put you in control and keep you connected throughout the quoting and order-fulfilment process.

Simple, fast, at no additional cost

- Request, track and receive quotes digitally
- Place and track orders digitally or "online, from anywhere"
- Build your own cart and check out orders with agreed pricing
- Buy bundles created for your company
- Integrate Go Direct with your procurement system or use it natively
- Mix and match features across stages dependent on each engagement

Choose the model that suits your business

Digital Basics

- Request, track and receive quotes
- Place and track orders, including estimated delivery dates
- View invoices
- View quote and order history

Digital Foundation

Digital Basics, plus:

- Access to multiple catalogs displayed as price on request (POR)
- Build a POR cart, request a price and receive a quote

Digital Intermediate

Digital Foundation, plus:

- Access to agreed catalogs and services with budgetary pricing
- Build a budgetary cart, request a price and receive a quote
- Approval workflows that mimic your procurement process

Digital Advanced

Digital Intermediate, plus:

- Client-specific pricing on agreed catalogs and services to allow you to completely self-serve
- Client-specific bundles with optional client configuration, if needed, with agreed pricing
- International configurations to support your procurement model
